

5 Reasons To Choose Viwinco

1 A Higher Standard.

The glass package that comes standard in every window we manufacture provides top thermal performance, with one pane of low-e, argon fill, and an Intercept® ULTRA warm-edge spacer. Plus, our frame contains more PVC than those of our competitors. The result? Superior energy efficiency. More structural integrity. A lifetime of durability.

4 Innovation—Every Day.

Viwinco's 30,000-square-foot, state-of-the-art Research & Development Center features a dedicated engineering and technical staff, and is home to our own certified test wall and on-site lab. The facility has enabled us to create the next generation of windows—including our OceanView® impact-resistant line.

5 Personalized Customer Service.

Our family-owned and operated business has been providing the immediate, individualized attention and service that has made our name one of the most trusted in the industry for over thirty years.

1

2

2 In-House Production = Unparalleled Quality.

Manufacturing occurs almost entirely within Viwinco's 140,000-square-foot manufacturing facility. We control the source. We oversee every step of the process—from laminating and tempering our own glass to hand-washing each window or door before it is shipped.

3

3 On-Time, Fast Delivery.

Our in-house production system enables us to custom-make every order to your exact specifications while maintaining one of the fastest turnaround times in the industry.

Impress the Weather

2016 Product Line
Impress the Weather

New Construction **Impact-Resistant** **Replacement** **Complementary** (All include our high-performance 15/16" double-strength insulated glass unit)

Builders Choice

Dependability.

- Economical and energy-efficient. Includes a 3/4" double-strength insulated glass unit
- Meets smaller egress sizes for increased safety
- Quick-release tilt mechanism offers easy cleaning
